SUBJECT: Glossary of Intelligence Terms and Definitions

Pro Leg

The IC Staff has just published its "Glossary of Intelligence Terms and Definitions," on which it had been working since last fall. I have been following preparation of this document because we have been involved in the definitions contained in the intelligence charter legislation. Although we are not bound by the definitions in this paper, particularly insofar as views on the charter legislation is concerned, the paper is of interest because it is a widely disseminated and extensively coordinated presentation of Intelligence Community thinking as to certain key intelligence terms.

STAT

Chief, Legislation Staff

I have attached a copy also which you may want to make available to the HPSCI.
